[Including cost estimate of the Congressional Budget Office]

The Committee on Transportation and Infrastructure, to whom was referred the resolution (H. Res. 1137) supporting the goals and ideals of National Public Works Week, and for other purposes, having considered the same, report favorably thereon without amendment and recommend that the resolution be agreed to.

PURPOSE OF THE LEGISLATION

H. Res. 1137 recognizes the contribution of public works professionals to communities across the country by facilitating a resolution to recognize this year's National Public Work's Week: May 18 through 24, 2008.

BACKGROUND AND NEED FOR LEGISLATION

“Public works” is loosely defined as projects or programs carried out by the federal or state government for the benefit of the community. These projects and programs include: transportation systems, such as rail, highways, and public transit; water supply infrastructure; sewage and refuse disposal systems; public buildings; and other structures and facilities.

Public works infrastructure, facilities, and services provide safety, health, and economic assurances for both large and small populations. These services could not be provided in the efficient and effective method in which they are without the skill of public works professionals, such as engineers, administrators, and servicemen.

National Public Works Week is observed each year during the month of May, and is aimed at increasing awareness of the dedication of public works professionals.

SUMMARY OF THE LEGISLATION

H. Res. 1137 recognizes the significant diverse contributions that public works professionals make every day to improve the U.S. public infrastructure and the communities that they serve, and states that the House of Representatives—

(1) supports the goals and ideas of National Public Works Week;

(2) recognizes and celebrates the important service that public works professionals make to each citizen's daily life; and

(3) urges citizens and communities throughout the United States to pay tribute to these efforts from May 18 through May 24, 2008, together with the Federal government.
